

Mrs. Schmitz

While this is Mrs. Ashley Schmitz's second year at St. George, it's her 12th year teaching! She lives in Linn along with her husband, Nick, and three daughters- Maggie, Ellie, and Penelope. Although she did not attend St. George as a student, Mrs. Schmitz has lived in Linn nearly her entire life, only leaving to go to college at Truman State University in Kirksville, MO. While she was there, she received her Bachelor of Science degree in Biology as well as her Master of Arts degree in Secondary Education. Mrs. Schmitz believes that science and math are for everyone - if nothing else than to be able to marvel at the beauty that God has created. Whether you are new to junior high as a sixth grader or as a seasoned seventh or eighth grade pro, Mrs. Schmitz looks forward to working with you this school year! "I will instruct you and teach you in the way you should go; I will counsel you with my loving eye on you." Psalm 32:8
