

Mrs. Johnson

I am so excited about the upcoming school year! It is going to be a pleasure to get to know and to help the children become acquainted to a structured school setting. We will get to know each other through learning and play experiences. In Religion class, the students will explore the wonderful world God has given us. The children will know the greatest gift given to us, Jesus. We will also explore the church seasons and God's helpers, the Saints. The children will be exposed to many Math skills and concepts. Spatial relationships, measurement, shapes, numbers and place value are some of the concepts that will be covered. We explore these skills and concepts through classroom lessons, manipulative, computers, Smartboards and games. We will also be very busy in the area of Reading. The children are at different levels of reading readiness. Our goal for the end of the year is to have everyone reading at the age appropriate level. Every child will show advancement by the end of the year. The children will also enjoy rhymes, stories and songs through the reading theme units. Along with being readers, the children will also become authors and illustrators of simple stories that they will create. As we work together as team between home and school, students will find success.
