

Mrs. Hoffman

I am very excited to be at St. George school for my ninth school year as an Educator. This school served as my elementary school and middle school and I am greatly looking forward to serving students in the community I grew up in. I suppose the saying goes "it's good to be home."

I graduated from Lincoln University in 2015 with a B.S.Ed in Elementary Education. Several years later I obtained my certification in Physical Education/Health for grades K-12. Throughout those years I have served in both the regular education classroom and in the Physical Education/ health world as well. I have had the amazing opportunity to grow and learn with some very amazing students and staff that have given me knowledge and strategies that I look forward to bringing to SGS with me to serve students here as well.
